Located on Maharashtra's coast, Mumbai is India's most populous city, and it is one of the largest and most densely populated urban areas in the world. It was built on a site of ancient set-

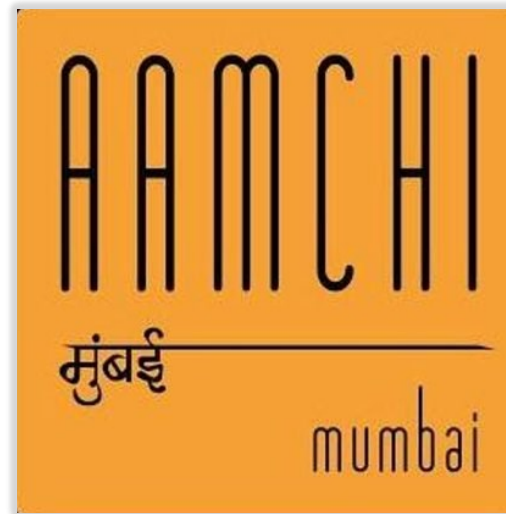

tlement, and it took its name from the local goddess Mumba—a form of Parvati, the consort of Shiva, one of the principal deities of Hinduism—whose temple once stood in what is now the south eastern section of the city. It became known as

Bombay during the British colonial period, the name possibly

an Anglicized corruption of Mumbai or perhaps of Bom Baim (“Good Harbour”), supposedly a Portuguese name for the locale.

Delhi and Mumbai are large cities with a population of more than 15 million each. Both cities have large bus systems. There is a need to enhance the share of bus users in Delhi to reduce the growing traffic externalities in the city. The objective of this work is to compare the existing bus services of Delhi and Mumbai.

This vegan street food classic from the streets of Mumbai is a carb-lovers dream. Spiced mashed potato is dipped in a batter and deep-fried until

crisp, before being placed inside a roll spread with tamarind chutney. The ghati masala sprinkled over the top is optional, but adds a burst of toasty, fiery flavours to the sandwich.
